Traveling  
the world

## At Karndean, we see flooring differently...

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs. By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

Seeking  
expressive and  
intriguing  
forms

Developing  
unique floor  
designs

The Knight Tile range is filled with effortlessly stylish American classics that have universal appeal, from neutral limestones to urban, cool grays.

Grey Limed Oak KP138 | SCB-KP138

Knight Tile is our most versatile range of products, offering a diverse mix of wood species and natural stones across varied sizes and formats. This range has a look for everyone, regardless of your room size or interior style.

Choose the format that fits your needs and in a color that suits your decor. With 32 colors available in gluedown, 13 of which are also available in rigid core, you can select the color you want in the solution you need. For example, you can enjoy the designability of gluedown on the ground level and the acoustic properties of rigid core in upper levels of your home.

## Warm

Warm-toned floors tend to align with more traditional, timeless décor styles. Any of these shades is sure to create an inviting atmosphere in your home.

Classic Limed Oak KP97 | SCB-KP97

Sycamore **KP32**

Cedar **KP35**

Walnut **KP36**

Warm Oak **KP39**

No expansion gap required

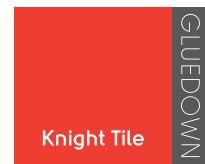

Individually replaceable

Suitable for any budget

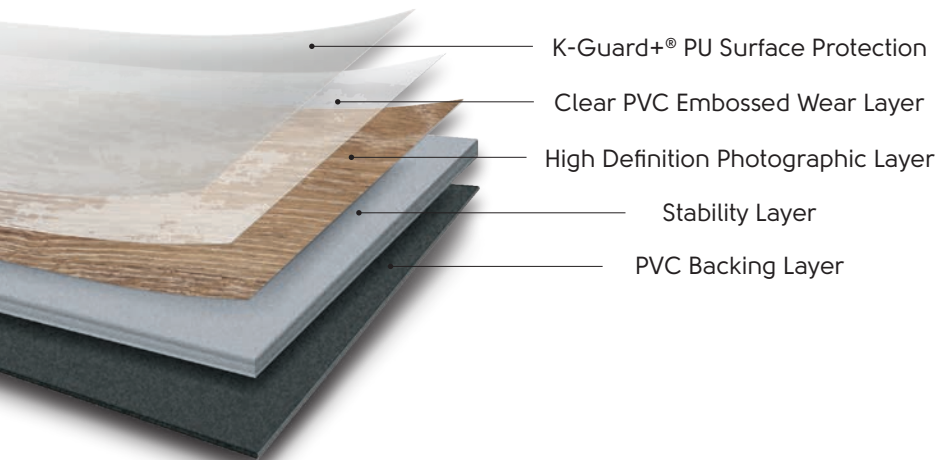

Personalize with design strips

Gluedown provides peace of mind that the product will be permanently adhered to your subfloor. This format gives you various lay patterns to choose from, as each plank is individually installed.

In addition, this format allows you to personalize your floor, choose the direction, create a pattern, or use design strips to create an inlay border or shiplap effect.

# Gluedown

# Rigid Core

Quick and easy to install

Installs over existing hard floors

Hides subfloor imperfections

Reduces noise transfer

Rigid core is a type of floating floor that clicks and locks into place, no adhesive necessary. This format can be floated directly over most existing hard floors, perfect for a quick project. A selection of 13 Knight Tile colors are available in an additional rigid core format.

This format is our quietest to walk on, ideal for upstairs rooms in the home where you wish to minimize noise transfer to rooms below.

### Color and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in color and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.
